DETAILED ACTION

1. Claims 1-11 and 22-31 have been cancelled by the Applicant.

Election/Restrictions

- 2. Applicant's election without traverse of Group I, claims 12-21, in Paper No. 13 received September 8, 2003 is acknowledged.
- 3. Newly submitted claims 32-35 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: These claims are associated with non-elected Group III that were cancelled. Applicant's comments regarding clarifying language is noted, but not in conformance with accepted practice.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 32-35 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Specification

4. The abstract of the disclosure is objected to because the various acronyms are not defined. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 12-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 12, line 2, the acronyms "PLU" and "GUI" are not clearly defined.

Claim Rejections - 35 USC § 103

- 7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 8. Claims 12-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Henty, US 6,363,366.

Henty discloses an apparatus for check-out of non-bar coded items comprising, a processing unit 24, a product look-up (PLU) 26 and a graphical user interface (GUI) 28 connected to database 12 for inventory monitoring.

Application/Control Number: 09/710,137

Art Unit: 3627

To have provided a list of most frequently sold items associated with the image of at least one item on a list of frequently sold items for Henty would have been obvious to one of ordinary skill in the art. Doing such would have been an obvious use of notoriously old method of analyzing inventory to move selected products. To have used a touch screen or keypad input mechanism would have been an obvious use of known display technology.

- 9. Further pertinent references of interest are noted on the attached PTO-892.
- 10. Applicant's three (3) separate Information Disclosure Statements have been reviewed.

 Note attached PTO-1449's.
